

**Asst. Prof. Ahmed Atia** 

**Address:** Department of Anesthesia and Intensive Care, Faculty of Medical Technology, The University of Tripoli, Libya

**Email:** [ah.atia@uot.edu.ly](mailto:ah.atia@uot.edu.ly) | **Contact Number:** 00218910737929

**LinkedIn profile** <https://ly.linkedin.com/in/ah-atia83>

**PROFILE:** To provide high quality science-based proactive risk management strategies and operational excellence in a fully compliant global pharmacovigilance system with the ultimate goal to safeguard patients' well-being and thus protect the company.

**KEY AREAS OF EXPERTISE:** Pharmacovigilance, Pharmacoepidemiology, Medical Education, Academic Writing.

*I am interested in Pharmacy education as its essential since adverse drug reactions are a serious health problem and contribute to unnecessary patient burden and hospital admissions.*

## EDUCATION

**PhD in Pharmacology** (11/2012 - 09/2016), Department of Pharmacology, Faculty of Medicine, the National University of Malaysia, Kuala Lumpur, Malaysia.

**MSc in Pharmacology** (09/2008 - 11/2010), Department of Basic Medical Sciences, Faculty of Medicine, International Islamic University of Malaysia, Kuantan, Malaysia.

**Bachelor degree in Anesthesia and Intensive Care**, Faculty of Medical Technology, University of Tripoli, Libya, (09/2002 - 09/2006).

**CERTIFICATIONS:** Publons Academy Graduate, IELTS, MS, SPSS.

## WORK EXPERIENCE:

### Office for Faculty Member affair, Director (2021 until now)

- Carrying out the affairs of the national faculty members, referring their academic load to finance, receiving their requests, and overcoming the difficulties they encounter.
- Keeping the main files of the faculty members and all matters related to them.
- Preparing the staffing for the faculty members.

### DATACLin, Country Study Manager, Egypt (2021 until now)

- Establishing and meeting country-level commitment regarding study timelines, patient recruitment, budget, and other study related aspects.
- Supporting communications with study stakeholders in the local country to ensure study flow.
- Ensuring all assigned studies are undertaken in accordance with ICH/GCP standards, DATACLin SOPs and quality standards, and local regulatory requirements.
- Be trained on study sponsor SOPs (if necessary) and disseminate knowledge to the project team members.
- Participate in local study team recruitment including CRAs, CTAs and Site coordinators.
- Ensure that the study team is duly trained and qualified to perform study activities.
- Performing / Supporting IRB/IEC submission and contract negotiation and finalization.
- Performing / Supporting Lab qualifications, sites feasibility, initiation and all study start up activities.

### **Department of Research and Consultation, Head (2018 – 2021)**

- Guided the research activities within the faculty.
- Research Counseling and Internationalization.
- Spreading the culture of scientific research and its importance among faculty members, students and the community.
- Directing scientific research in line with community development and service.
- Providing assistance to students and faculty members in the field of field research, which requires contacting other parties.
- Providing scientific advice to ensure the quality of the educational and research process.
- Follow-up on the implementation of the joint international projects implemented for the benefit of the university, emanating from the official cooperation programs between Libya and international and regional bodies.

### **Department of Basic sciences, Coordinator (2011-2012)**

- Achieving higher goals and policies at the faculty.
- Implementing the decisions of the faculty Council in relation to the department.
- Supervising the preparation of the department's strategic plan and following up on its implementation.
- Supervising the administration of the department's educational, research, administrative, financial and cultural affairs.
- Supervising the development of the department administratively, academically and research

**VOLUNTEER EXPERIENCE:** Emergency support in Field hospital, COVID-19 Educational support
